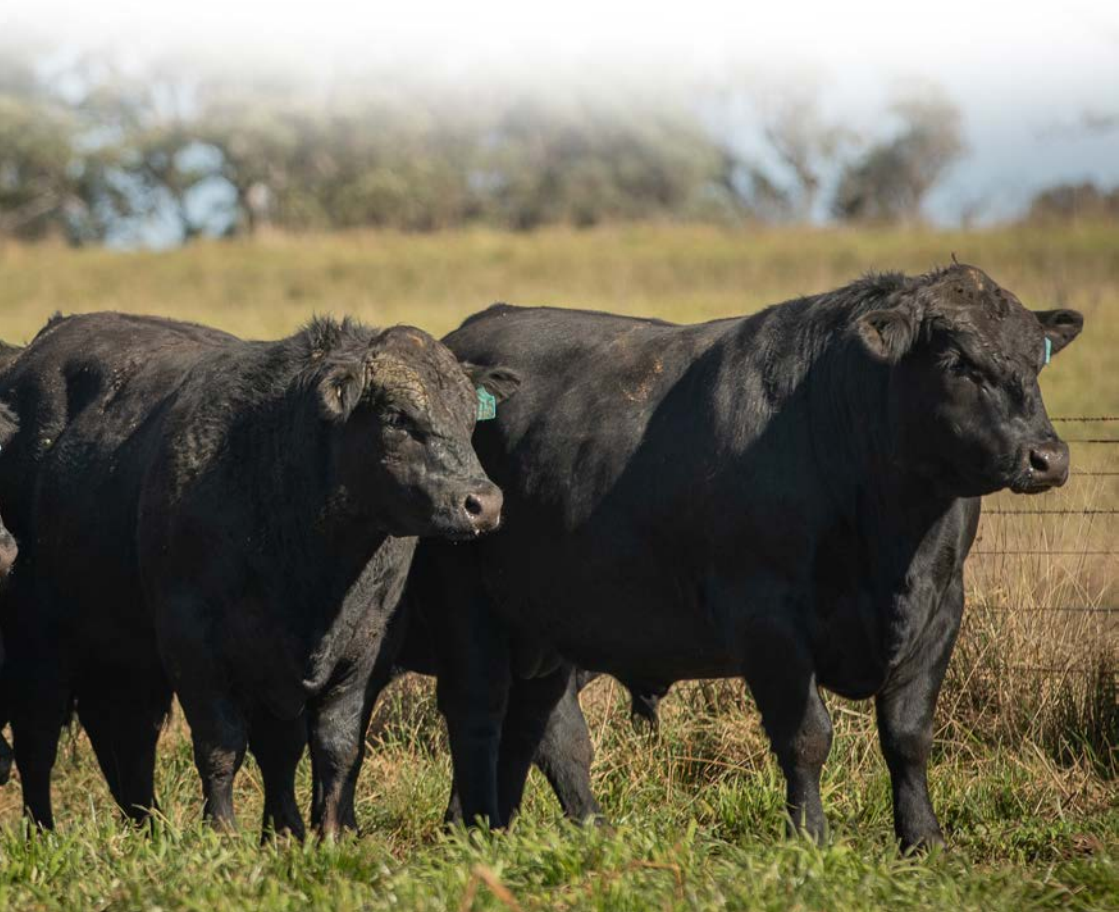
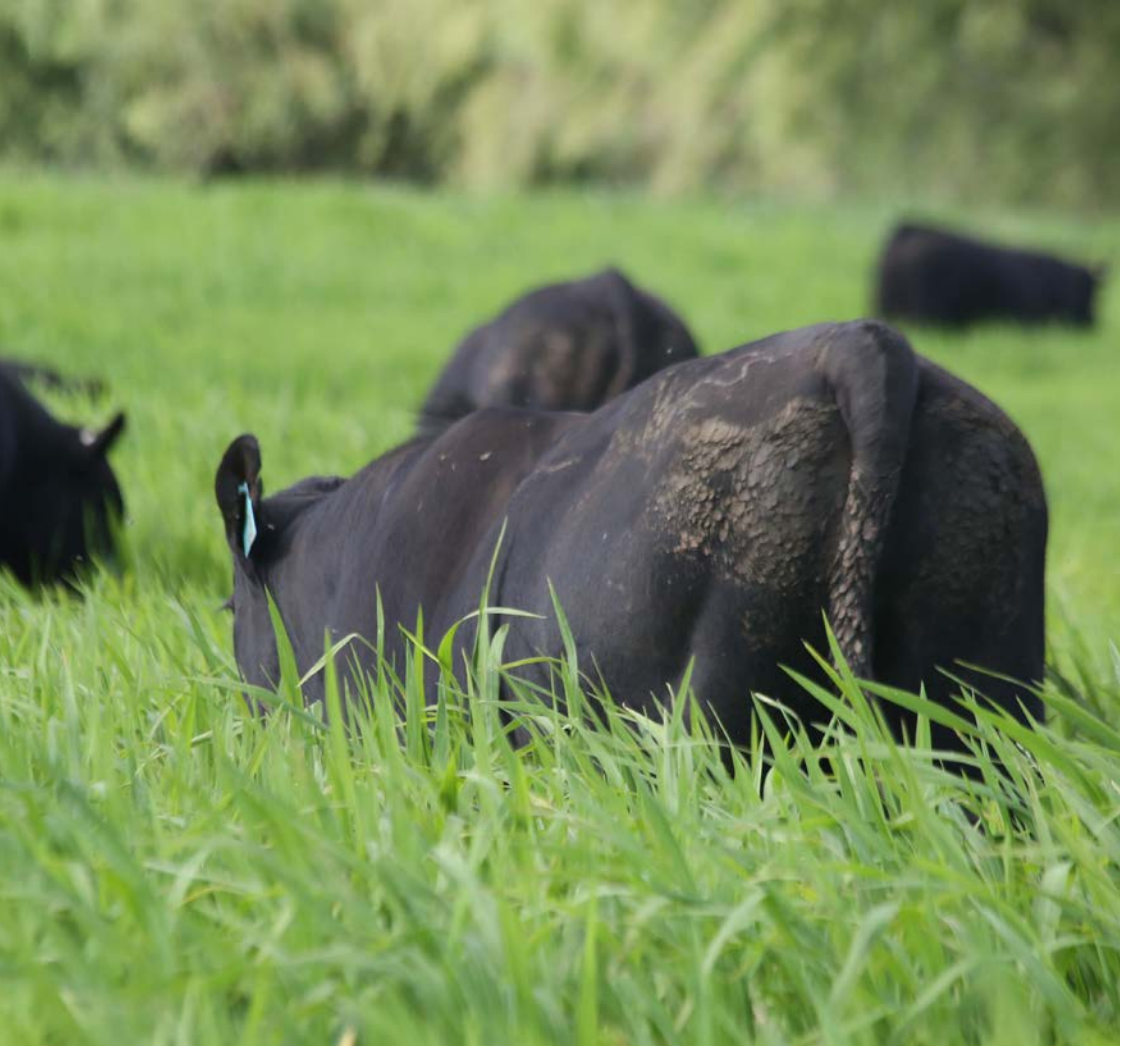
THE STATION ANGUS
2025 Sale Bulls

Grown on grass





The Station Angus

While the Station Angus was established in 2022, our experience in breeding goes back many years.

Since 1996, we've successfully bred commercial cattle, winning numerous awards for meat-eating quality and consistently achieving high MSA (Meat Standards Australia) indexes. Our goal is to take this experience and apply it to our stud, aiming to improve the figures through selective breeding and a commitment to excellence.

We're not just focused on numbers or fancy pedigree — our bulls aim to be commercially relevant and are bred for meat-eating quality first and foremost. That means the kind of beef you want to put on your plate. We endeavour to select genetics with these traits in mind, and we take extra care in how we raise and manage our stock.

We have a strong belief that the foundation of premium beef begins with the pasture — and we take that responsibility seriously. We use regenerative practices that prioritise soil health, biodiversity and long-term sustainability.

We carefully rotate our cattle across well-established pastures made up of cocksfoot, clover, fescue, prairie and ryegrass, ensuring our herd always has access to nutrient-rich feed. Deep-rooted species improve soil structure and moisture retention, while supporting healthy rumen function and steady, natural growth in our bulls. By focusing on pasture quality first, we're raising healthier, more resilient cattle.

This year we have 16 rising two-year-old bulls for sale, all 100% grass-fed and free from grain-based feed.

If you have any questions, or would like to arrange an inspection of our sale bulls, please don't hesitate to get in touch.

Alan Scrivener

16 ANGUS BULLS
Paddock Sales

While we might not be the biggest stud, we have an enormous passion for breeding grass-fed Angus bulls that perform where it counts.

Grown on grass

Why grass-fed matters

Our bulls, typically selected for traits such as good temperament, strong libido and structural soundness, are more likely to thrive in a grass-fed environment and perform consistently throughout the breeding season.

These bulls are often preferred for breeding due to their natural adaptation to pasture-based systems, which can lead to better fertility, longevity, and overall health in a grass-fed operation.

GRASS-FED BULLS ARE:

- bred to thrive in pasture-based systems
- more likely to handle the challenges of weather, terrain, and forage availability.
- better equipped to maintain health and body condition on a forage-based diet.
- known to have strong fertility traits that are essential for maintaining a productive herd.
- ideal to meet specific market requirements, such as MSA (Meat Standards Australia) standards.
- more likely to maintain performance throughout their breeding life.
- more sustainable and ethical way to raise cattle, supporting local ecosystems and reducing the environmental footprint.

Sale Information

METHOD
We will be selling our bulls out of the paddock at 'Marathon' Yarrowitch NSW.

INSPECTIONS
Please contact us to arrange an inspection.

HEALTH
Bulls were drenched, vaccinated and weighed at 'Marathon' on Tuesday 8 July.

VET CHECK
Bulls will be vet checked prior to collection/ delivery.

GENETICS
Sires represented include:
Bowmont King K306, Ardrossan Equator A241, Alloura Get Cracking G10, along with Bonny Brooke bred Nayati N165.

NOTES
Our bulls are quiet to handle under normal conditions, however, there are always risks Visitors inspect the animals at their own risk. Bulls are worked on foot and moved using quadbikes and dogs.

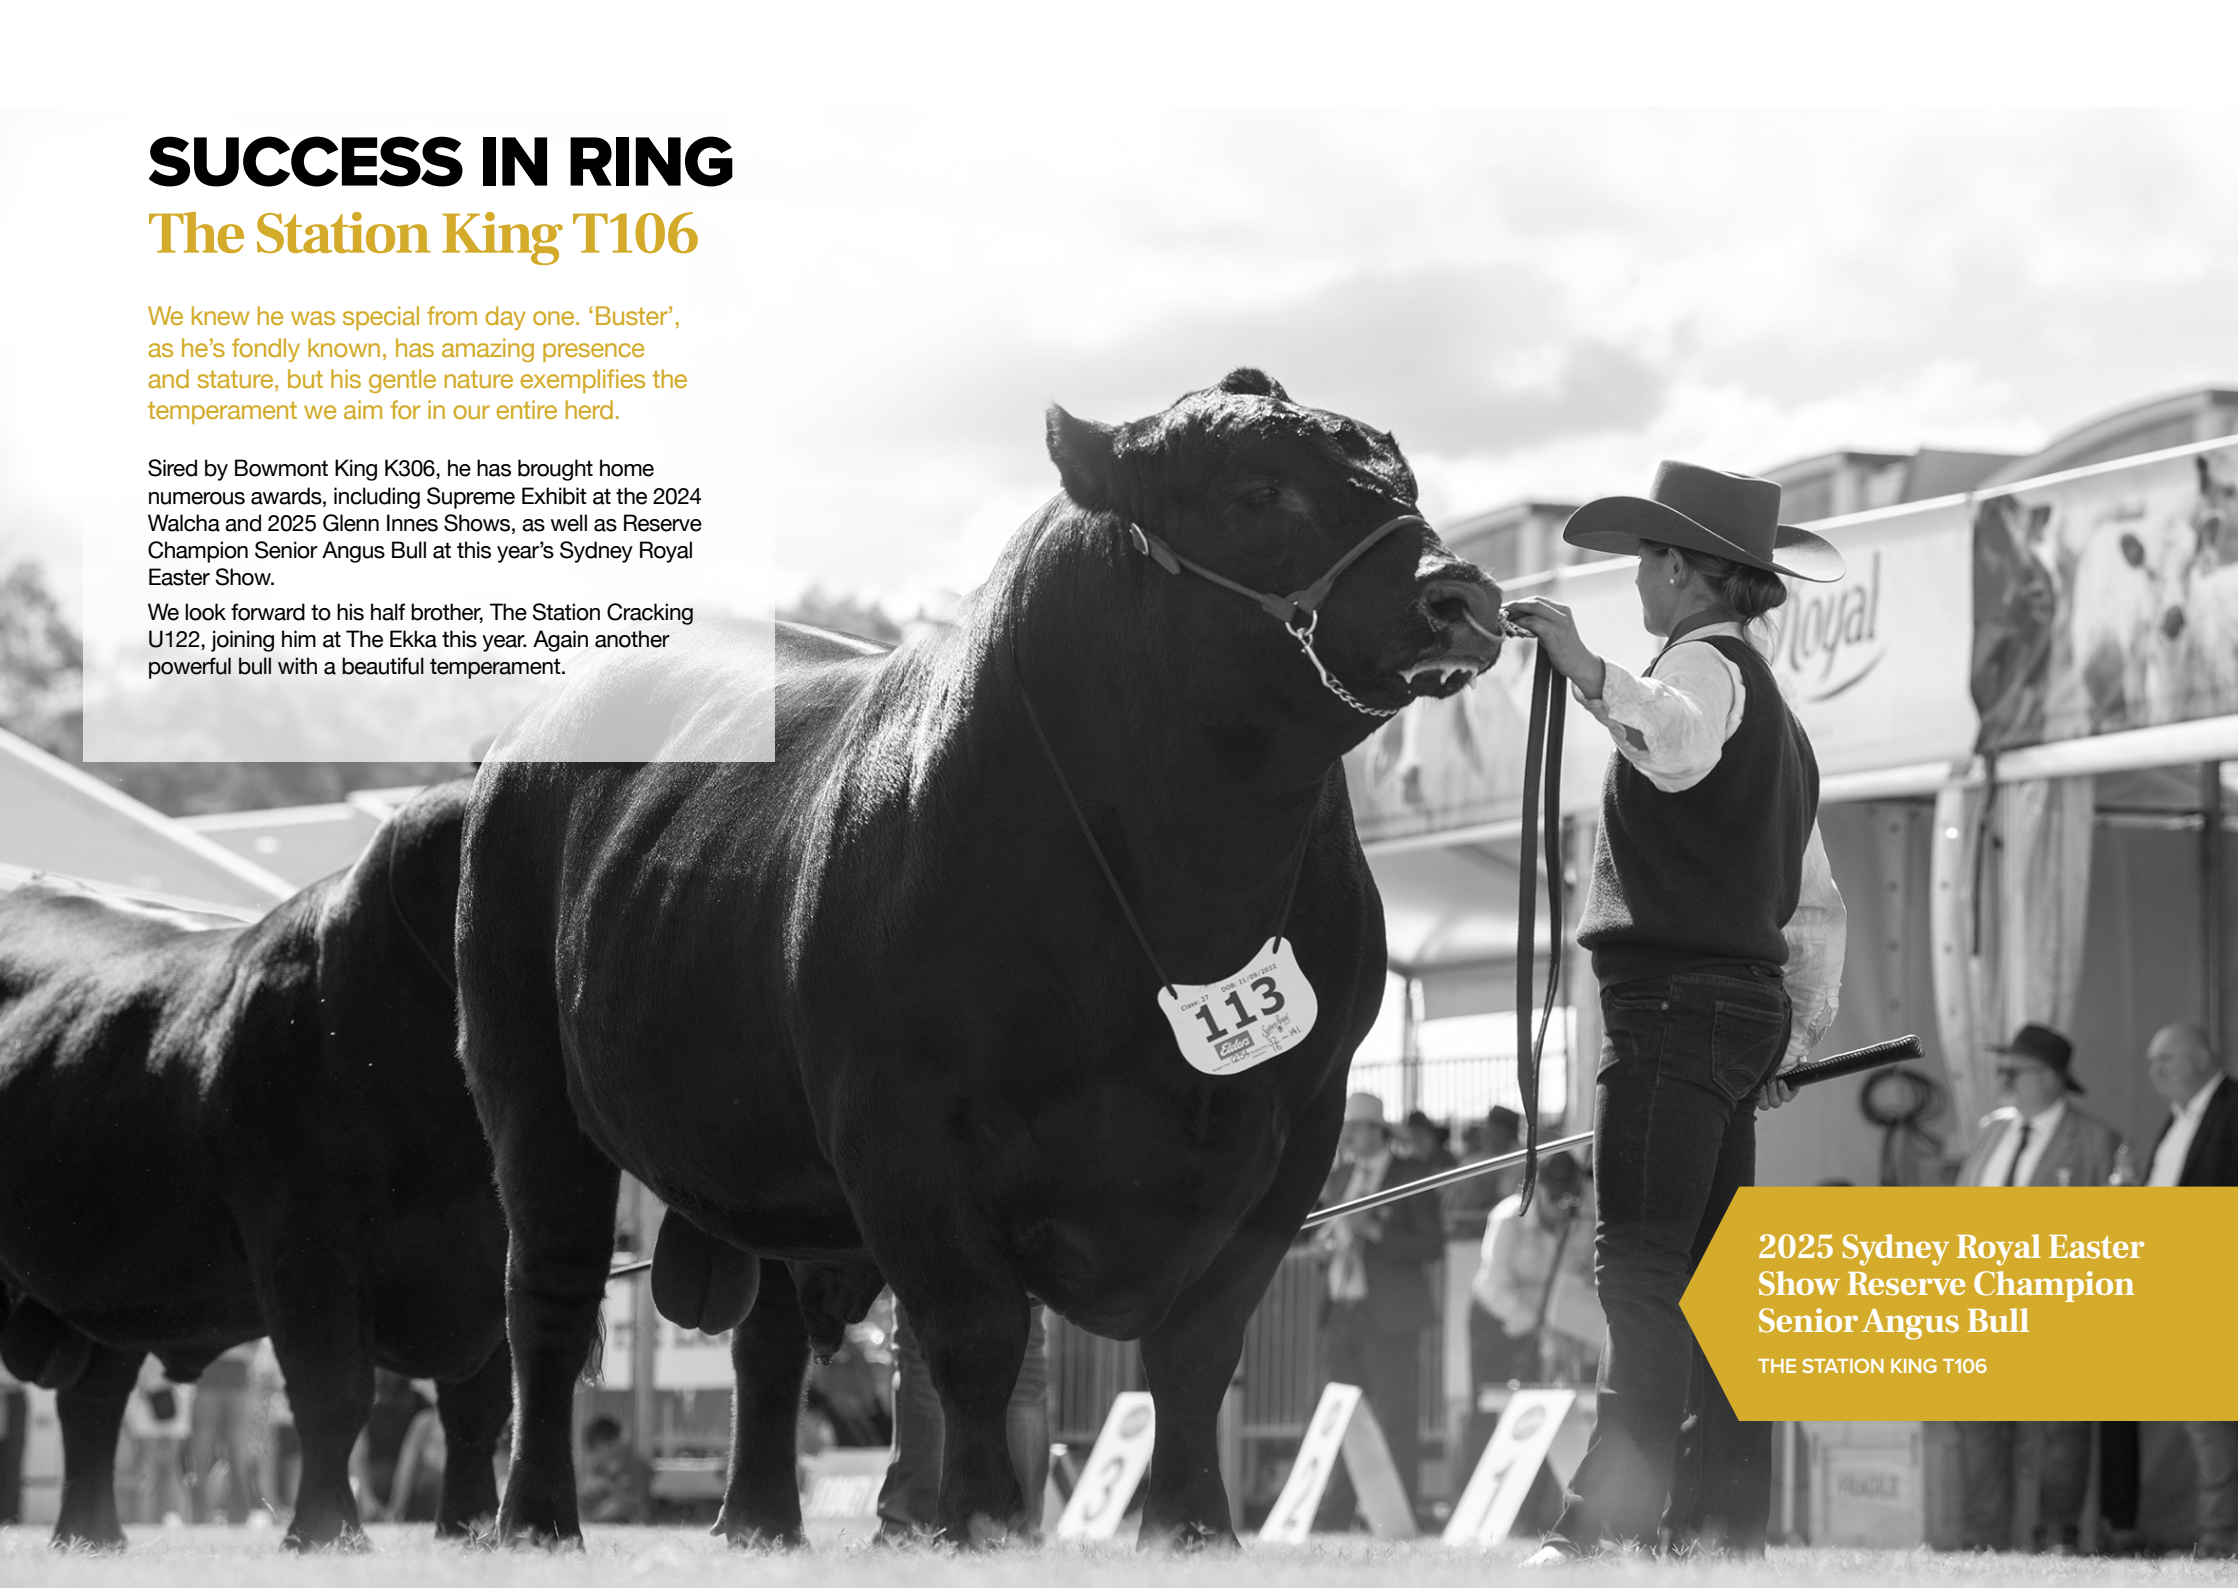
SUCCESS IN RING

The Station King T106

We knew he was special from day one. ‘Buster’, as he’s fondly known, has amazing presence and stature, but his gentle nature exemplifies the temperament we aim for in our entire herd.

Sired by Bowmont King K306, he has brought home numerous awards, including Supreme Exhibit at the 2024 Walcha and 2025 Glenn Innes Shows, as well as Reserve Champion Senior Angus Bull at this year’s Sydney Royal Easter Show.

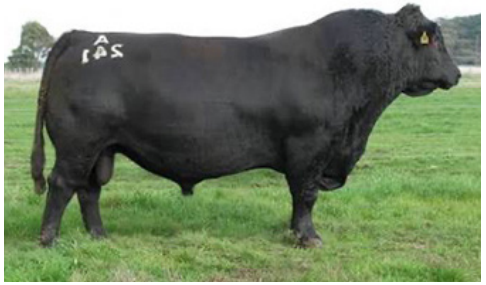
We look forward to his half brother, The Station Cracking U122, joining him at The Ekka this year. Again another powerful bull with a beautiful temperament.



2025 Sydney Royal Easter Show Reserve Champion Senior Angus Bull

THE STATION KING T106

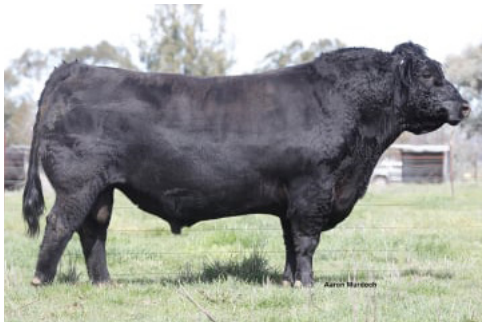
Reference Sires



ARDOSSAN EQUATOR A241^{SV}
2 SONS

ID: NAQA241
DOB: 09/09/2005
SIRE: PAPA EQUATOR 2928
DAM: ARDROSSAN PRINCESS W38

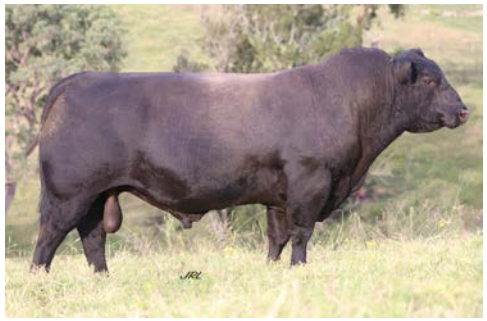
Ardrossan Equator was the number one AI sire in Australia. His progeny are muscular and correct.



ALLOURA GET CRACKING G10^{SV}
3 SONS

ID: DGJG10
DOB: 14/08/2011
SIRE: TE MANIA BERKLEY B1
DAM: ALLOURA JEDDA Z15

Structurally correct. Used with confidence as a genuine breed changer for marbling.



BOWMONT KING K306^{PV}
3 SONS

ID: SRKK306
DOB: 07/11/2014
SIRE: MILWILLAH GATSBY G279
DAM: LANDFALL FEARLESS D58

King K306 is a proven sire. His progeny display extreme muscle expression and spring of rib.

BONNY BROOKE RIO R126^{SV}
1 SON

ID: NUIR126
DOB: 06/12/2020
SIRE: BOOROOMOOKA THUNDERBIRD L364

DAM: BONNY BROOKE BURNETTE K88

PARENT VERIFICATION SUFFIXES

Animals listed in this catalogue, including pedigrees, display a Parent Verification Suffix which indicates the DNA parent verification status. The Parent Verification Suffixes will appear at the end of each animal's name.

PV Both parents have been verified by DNA
SV The sire has been verified by DNA
DV The dam has been verified by DNA
DNA verification has not been conducted
E DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Sale Catalogue disclaimer

All reasonable care has been taken by the consigners to ensure that the information provided in the catalogue is correct at the time of publication. However, neither the consigners nor the selling agents make any other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to see independent verification or any information contained in this catalogue before relying on such information.

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.
